Historical Sketch

In 1913 a region of Kansas City known as Burge Park was developed as a residential district. Nearby elementary schools, Scarritt and James, became overcrowded. Gladstone School was built and completed in 1915 at 335 North Elmwood Avenue to accommodate the new residents. The original Gladstone school was demolished in 1988 and a new Gladstone Elementary school was built in its place.

Scope and Content Note

The collection contains “Pupil’s Annual Records” from 1915 to 1938, which record the student’s name, gender, date of birth, parent/guardian, residence, and phone number on individual forms. The records also track attendance and scholarship for the student. Items in this collection are standard forms and are arranged chronologically

by school year. Within each year, they are separated by gender and then arranged alphabetically by last name.
