Welcome to Central

Daniel L. Britton

Principal

To all of our Centralites, and especially to the graduating class of 1981, I congratulate you for your success this far as you prepare for your future. You have come a long way, but there is still a long way to go. As we take a look into the 80's, we see inflation continue to rise. The energy crisis continue to effect the nation in a very negative way, and the economic picture for America is probably worse than most of you have seen. These are just a few indications of a greater need for our youth of today to be better prepared for the future. There is a definite need today for young people with a deeper commitment and a determination to achieve excellence and to better prepare themselves for the future. What the world needs today is young individuals with fully developed minds and a willingness to give of yourselves in an effort to search and seek answers to the problems that face our nation, and to make this America a better place for all to live.

Are you ready for this challenge?
Think about this.

Daniel L. Britton

Vice Principal

Cummings, Jack P.

Congratulations to all of you, the members of the graduating class of Central Senior High School, 1981. The receiving of your diploma indicates you have completed twelve years of successful education. Do not consider this as an ending, but a beginning of a new life, a life in which you will continue to develop yourself to your fullest potential. Whatever avenue of life you have chosen to pursue put all of your physical, intellectual, and emotional effort into everything you attempt. Remember, in order to succeed you must first try, if you don't try you cannot succeed. In our present society, the stress seems to be on all phases of human development. This includes social, educational and financial development. Thus, after overcoming one big hurdle, each of you must continue striving to make the most of future educational opportunities so that you can be self-sustaining, self-sufficient, and valuable to your community. I hope that your education at Central Senior High School has provided you with special skills and talents for living a successful and creative life. We will always appreciate your involvement in any school activity that will help make Central Senior High School the best school in the city of Kansas City.

Jack P. Cummins
Assistant Principal

Mrs. Swift

It is delightful and rare that so much ability and talent is concentrated in such few youth. I challenge each and every Centralite to continue to grow and develop your lines and attributes, to be educated, to become positively involved and to continue the Central Tradition.

Mrs. Swift

Centralites, this is the year of decision changes for our country. Everyone is aware of the result of the recent election in which the conservative mood of the American people influenced our choice of public office Nationally and locally. Changes which will affect every avenue of our society are expected as the pendulum serving from permissiveness to more restrictive less extravagant measures.

Youthful though you may be, it is time to reflect on your future. Show vital concern for social welfare and academic excellence. It's time de-emphasize "fun-and-games" as usual. The ideas of scholarship and service have waterlood the test of all times.

Today is no different. So dedicate yourself to the optimistic goods of self-important hard work and determination to be prepared to be your rightful place as a production member of the American society. Think about it and Act!

THE COUNSELING PHILOSOPHY OF ANY SCHOOL IS THE END RESULT OF THE BLENDING OF THE INDIVIDUAL PERSONALITIES OF THE STUDENTS AND THE FACULTY. THE COUNSELORS AT CENTRAL HAVE ENJOYED AN UNUSUALLY COMPATIBLE RELATIONSHIP WITH THEIR STUDENTS AND COLLEAGUES, LARGELY, WE BELIEVE, BECAUSE WE CHOSE TO BE HERE. THIS OPTION HAS CHANGED IN SOME RESPECTS DUE TO ADMINISTRATIVE NECESSITY. WE HOPE THAT THE MAIN CONCERN WILL REMAIN, THE INTERESTS AND WELFARE OF THE STUDENTS ABOVE ALL ... "GOODBYE MRS. DONOVAN"

Top Five Seniors

Barbara Moore — After graduation I plan to further my education by attending college. I plan to attend the University of Missouri — Kansas City, where I will major in Accounting for a possible future as an Accountant or CPA. As a young black woman entering the world of business, I look at the future as a challenge.

Jacqueline Nevins — Upon my graduation from Central I plan to enter college in Missouri, where I will obtain a degree in Accounting and advance to my ultimate goal of becoming a C.P.A. I look forward to my future with both determination and fear. From where I stand I see my future as millions of paths before me. And my choice of one will determine my fate in this world and the next world to come.

Vickie Jackson — My plans for the future includes graduating from Central High School and attending the University of Missouri in Kansas City. While attending UMKC, my main concern and interest is obtaining a Bachelor's of Business Administration Degree. My goal in life is to become an Executive Administrator for a large company. I feel that in today's world, Business Administration is a very good field with many opportunities for black women.

Saundra Buford — Upon graduation, I plan to attend Kansas State and major in Accounting and minor in Computer Science. After graduating, I hope to work for a firm as a Certified Public Accountant.

Debra Harden — After graduation, I plan to attend UMKC for 4 yrs. I plan to major in Business Administration and minor in Computer Science. After I graduate from college, I hope to work for a large firm, and I someday hope to own my own business.

At the Beginning

At the beginning,
Our goals were yet unconceived
And though we were underclassmen
The web of knowledge
our minds would weave;
Three years were set
before us;
Together as one
we would be victorious
But if obstacles of life should
push us out of place,
We would stand together
to keep our black faith
We saw in the future
toil and frustration;
Together we would meet
them without hesitation
Our minds were well aware
that we were and we are black
Nothing but nothing
can hold us back
We are vigorous
We are alive
Let it be known
We are Cool
We represent the great
Central Sr. High School
The battle we have won
This is the class of

"81"

By Gwenette E. Hooks

The eleventh grade is a big step toward realizing our dreams of high school and the ambitions we hold for the future.

Central should be considered the place to begin achieving our goals, for the work is challenging.

The Central class of "82" are going to make it in the outside world. We have become accustomed to hard work and realize that it will be a necessity in the daily battle of survival.

I want it known that we aren't going to be a part of the common crowd we will stand up and make ourselves noticed by society.

We all strive for one thing: Perfection. And with that idea in mind, tomorrow's world is a guaranteed success!
