ADMINISTRATION

Kipp's Comments

Southwest High School looked forward to a good school year. We found many successes and kept failures at a minimal level. The academic learning was of primary importance. We also pointed with pride to our Fine Arts program, athletic programs, and general school cocurricular activity. We were optimistic about the Student Government and Student Response Team. The "class of 1980" is entering a new and exciting decade. We know that this class will do well as they learn and grow with the "80's".

Up, Up, and Away

The Varsity Basketball Team was comprised of primarily juniors this year. Only two seniors returned to the squad. Due to this lack of experience, the team had a harder time developing into a united squad. They learned from their mistakes, however, and the skill of individual and team performances was perfected. Many of the games were close; the Indians fought to the end and often came up two points short. The frustrations resulting from these bitter struggles often left the team downhearted, but the Indians remained loyal and spirited in the wake of their defeats.
