

SACHEM

# 1982 SACHEM

Southwest High School  
6512 Wornall Road  
Kansas City, Missouri 64133

Two roads diverged in a yellow wood,  
And sorry I could not travel both  
And be one traveler, long I stood  
And looked down one as far as I could  
To where it bent in the undergrowth;

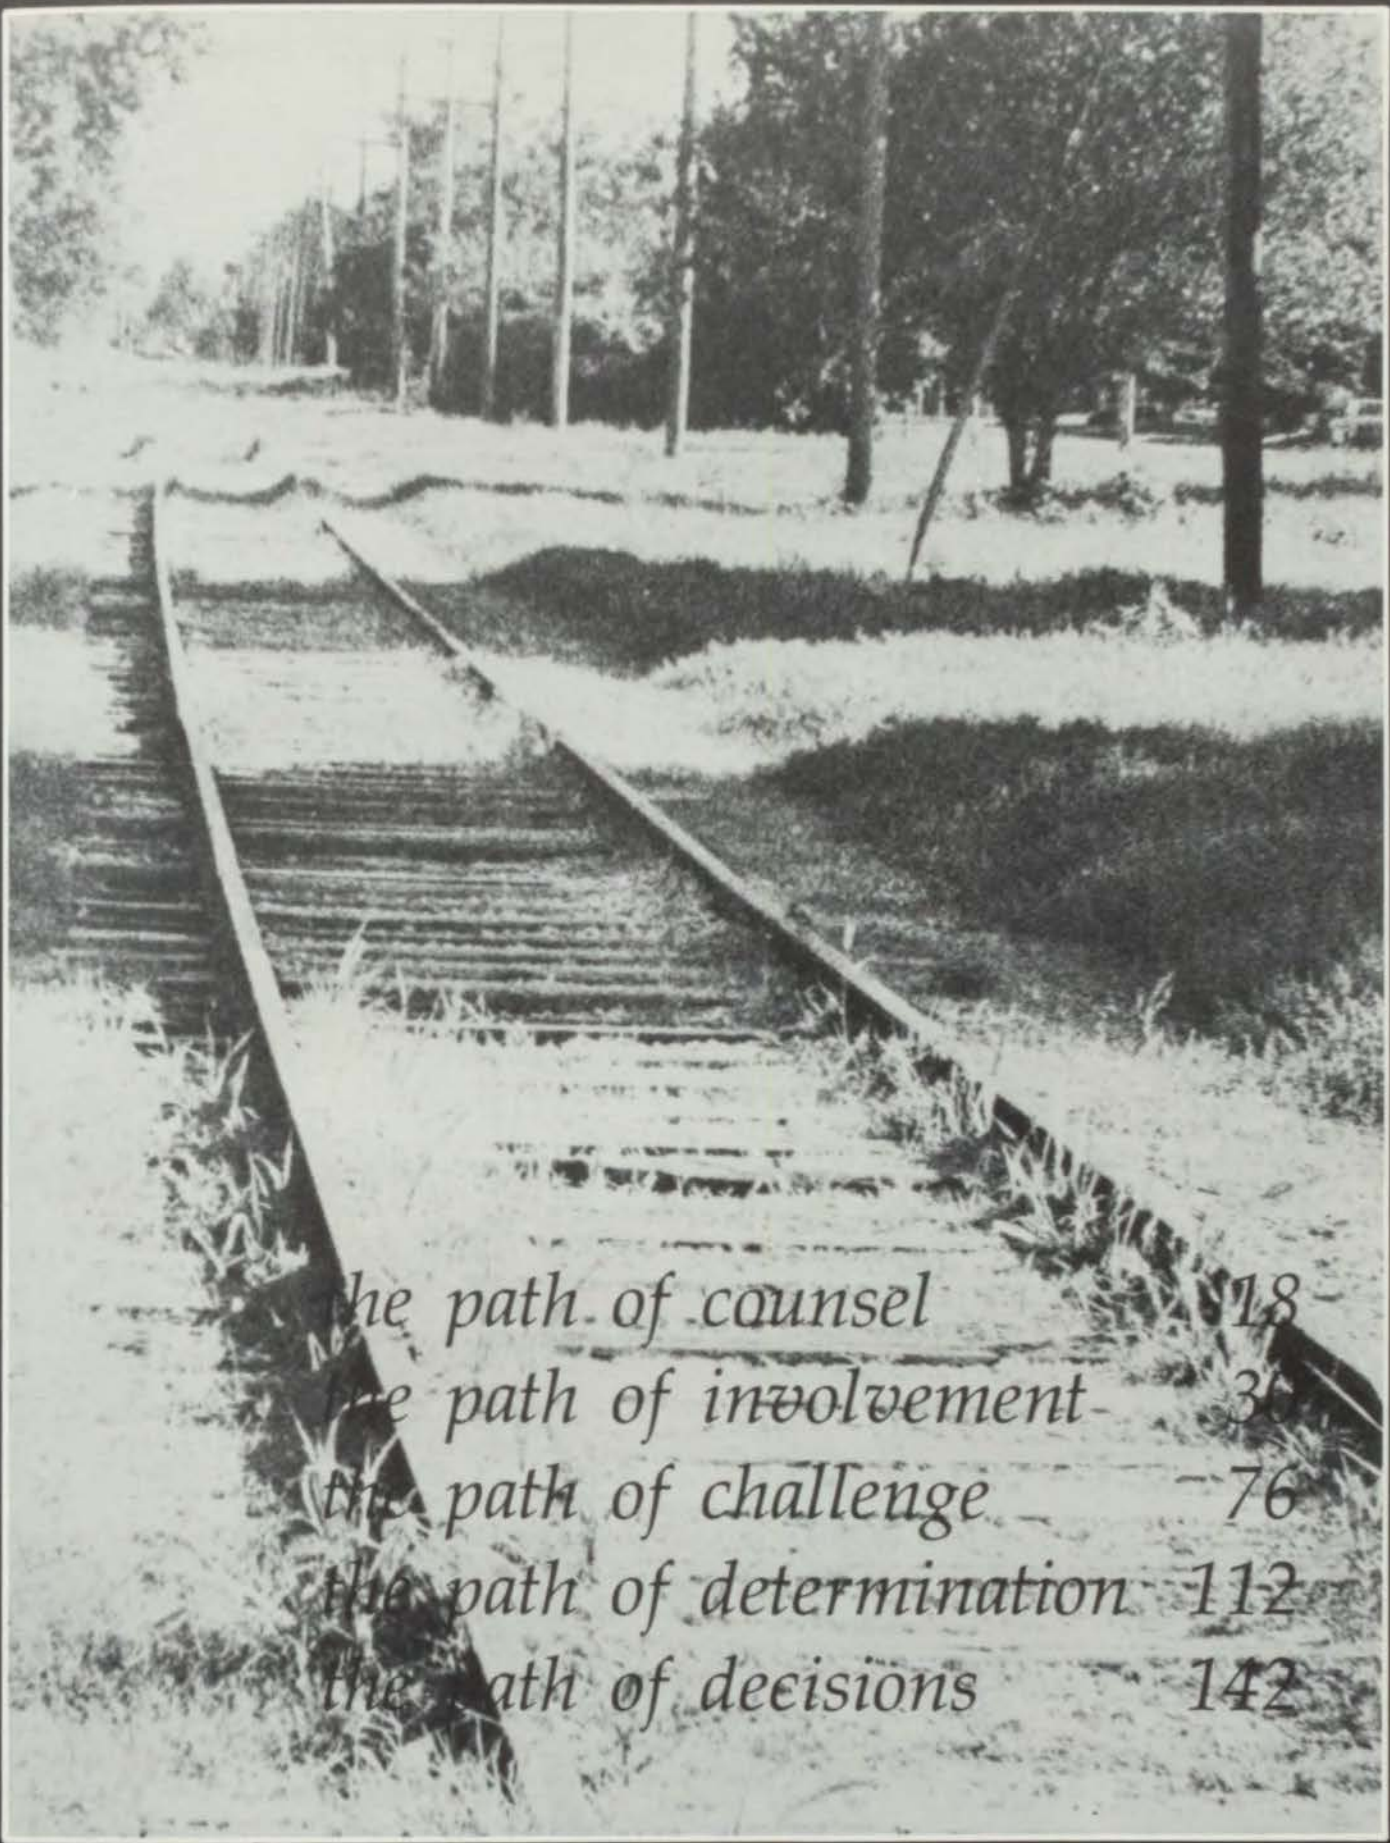

Then took the other, as just as fair,  
And having perhaps the better claim,  
Because it was grassy and wanted wear;  
Though as for that the passing there  
Had worn them really about the same.

And both that morning equally lay  
In leaves no step had trodden black.  
Oh, I kept the first for another day!  
Yet knowing how way leads on to way,  
I doubted if I should ever come back.

I shall be telling this with a sigh  
Somewhere ages and ages hence:  
Two roads diverged in a wood, and I—  
I took the one less traveled by,  
And that has made all the difference.

—Robert Frost

### *A Word from the Wise.*

*Each school year affords everyone concerned with the education process an opportunity for growth and development. How well we individually and collectively respond to that challenge determines whether we have had a successful year or not.*

*In balance I believe that our successes have exceeded our failures and that we can reflect on a year that has been more positive than negative. Regardless, we cannot afford to rest on past laurels. No institution is so good that it can't be improved and Southwest is no exception to that axiom. We need to keep that idea of improvement in mind as we look to the future.*

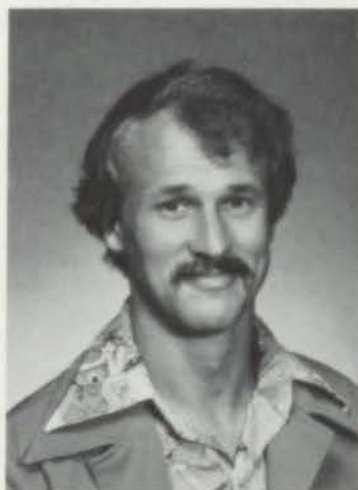

*For the seniors who are leaving Southwest, we wish you every success in the future, and for the underclassmen a hope that you will take advantage of the days left for you in high school to achieve as good a record as you possibly can.*
