# NEWS

Voices in the news from every corner of the planet rocked the world! We continued our quest for freedom for all people and looked forward to the 21<sup>st</sup> century with optimism and determination.

**Checkmate!** World chess champ **Garry Kasparov's** 15-year reign was finally broken by his former student, **Vladimir Kramnik**.

**Mother Nature's Foul Temper** Planet Earth didn't let us off easy this year. We weathered ice storms, heat waves, droughts, floods, and one of the most severe wildfire seasons in U.S. history. Aid from around the world poured into western **India** where thousands died in the most severe earthquake in the country's history.

**Too Close to Call?** While the world watched, **Florida** manually counted and recounted thousands of ballots, dragging the presidential election on for six weeks. Finally, after tallies showed Texas Governor **George W. Bush** winning the electoral college vote by a margin of 271 to 267, and losing candidate Vice President **Al Gore** finishing with the popular vote, Mr. Bush was declared the 43<sup>rd</sup> president of the **United States**.

## Mr. President: Like Father, Like Son

George W. Bush grew up in Midland, Texas, doing the regular kid thing: biking around town, playing little league baseball, and fishing with his dad, former **President George Bush**. George W., with the support of his wife Laura, promised to build "a single nation of justice and opportunity," highlighting education as a top priority during his administration.

**Pathways to Peace** Courageous campaigns for freedom and democracy dominated the news. Western nations cheered when **Yugoslavia** ousted **President Slobodan Milosevic** and voted in **Vojislav Kostunica**. South Korean President **Kim Dae Jung** won the Nobel Peace Prize for his efforts to improve relations with **North Korea**. Palestinian President **Yasser Arafat** and Israeli Prime Minister **Ehud Barak** continued to work toward a peace agreement, and Russia's ruling power changed hands as **Boris Yeltsin** passed the reins to **Vladimir Putin**.

**Brave Hearts** We mourned lives lost in the line of duty. Seventeen American sailors died in a terrorist bombing attack on the **USS Cole** while docked in **Yemen**. Another seaborne tragedy struck when the Russian nuclear sub **Kursk** sank, killing 118.

## science, learning and technology

Advancements in technology rapidly changed the way we communicated, worked, learned, and relaxed. Groundbreaking research and development brought us a whole new way to look at our past, present, and future.

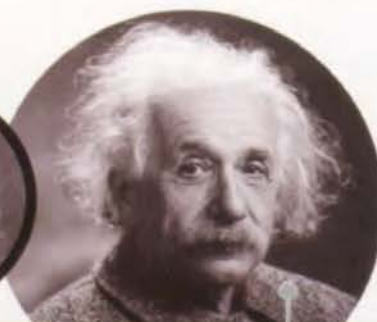

**Big-Boned Sue** The past shed light on our future with the discovery of a **T. Rex Named Sue**, 67 million years after her death. Named after fossil hunter **Sue Hendrickson**, Sue was the largest *Tyrannosaurus rex* fossil ever found. On the other end of the size chart, microbiologists discovered 250 million-year-old bacteria imbedded in salt crystals below the desert floor.

**What a Sight!** A new laser-assisted procedure called **Lasik** helped thousands chuck their glasses. Genetic disease research got a big boost when **J. Craig Venter**, **Francis Collins**, and the **Human Genome Project** team decoded human **DNA**.

## Friends For Life

The number of species on the endangered list ballooned to over 1,000, with nearly 100 more becoming extinct every day. We worked to reverse this man-made trend by reintroducing many species, such as wolves, sea turtles, and golden lion tamarins, back to their natural environments.

## champions

From match point to point guard, athletes kept us on the edges of our seats as we cheered, applauded, and celebrated their seemingly boundless megatalents.

**Victory Over Adversity** Bike racer **Lance Armstrong** won his second **Tour de France** and an Olympic bronze medal after defeating cancer just four years earlier. Another hero, Pittsburgh **Penguins** hockey ace **Mario Lemieux**, skated out of retirement and back to the rink after a successful battle against Hodgkins disease. talk of the year

We went retro, high-tech, and hip, surrounded by a popular culture that embraced a wide range of hobbies and new products. In our daily lives, we carved out our niches with activities that were educational, artistic, and pure fun!

**Toys Are Us** The nostalgia craze brought us scooters, and we went gaga over these wheels, shelling out anywhere from \$50 to \$2,500! Another retro win was the unveiling of the 1940's retro-style PT Cruiser, the biggest launch in Chrysler's history. The new Sony Playstation 2 featured the coolest in computer animation, and thousands of game geeks camped outside retail stores, hoping to get their hands on the first release. Another new toy, a battery-operated robotic puppy, barked its way into homes from Tokyo to Tallahassee.

**Quidditch, Anyone?** We went nuts over Harry, and thousands of us lined up the night of July 7<sup>th</sup> to score a copy of J.K. Rowling's fourth installment, *Harry Potter and the Goblet of Fire*. Although some parents and teachers questioned the concept of magic, no one could argue with students' newfound love of reading!

## MOVIN' AND GROOVIN' WITH THE TIMES

The tunes and styles may change, but dance is here to stay.

**1500's** Elizabethan

**1800's** Social dance

## Hands Around the World

Prince William wasn't the only one rolling up his sleeves and volunteering! Young people all over the world pitched in, giving their time and energy to lots of great causes, from helping out at the **Special Olympics** to bringing art into their neighborhoods. What inspired them to volunteer for community service? Just a great feeling of satisfaction from helping others!

**A Man Among Princes** When Prince William, eldest son of Prince Charles and the late Princess Diana, turned 18 this year, he took a 10-week break from royalty to volunteer for community and environmental projects in Chile. At school, he excelled in art history, geography, biology, swimming, soccer, and polo.

**Food, Glorious Food!** Blame it on our hectic lives, but our preference for high-fat fast food brought expanding waistlines, with 10% of Americans ranked as overweight. On the other hand, the organic food movement grabbed our attention as we questioned the use of genetically-engineered, preservative-loaded, over-processed foods.

**Amazing Kids!** Teenagers expressed their individuality and creativity in activities from dance to digital art. How were you unique?

arts & entertainment

Everywhere we turned, we found talent galore! We made the most of what surrounded us by spending our free time and spare change escaping into books, movies, electronic media, music, and television.

**Movie Mania** Canadian funny guy **Jim Carrey** starred in *The Grinch* which grossed \$55 million on opening weekend! **Denzel Washington** brought the true story of *Remember the Titans* to life, **Tom Cruise** came back for more thrills and spills in *Mission Impossible 2*, **Charlie's Angels** got a facelift, **Mel Gibson's** study chicken saved the day in *Chicken Run*, and **Castaway's** **Tom Hanks** spent four years on an island with his ball, Wilson.

**Teens Rule** TV shows starring teens were hot again this year. We grooved on *Malcolm in the Middle*, *Buffy the Vampire Slayer*, *Popular*, *Felicity*, *Moesha*, and *Dawson's Creek*. And fans rallied to give *Freaks and Geeks* a second life.

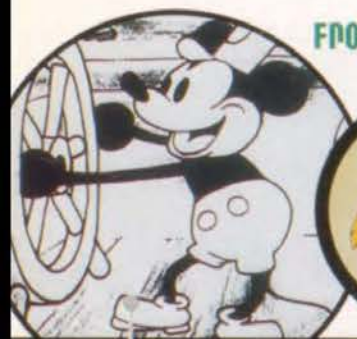

**Different Notes for Different Folks** Styles all their own, you bet. But every one of these pop singers shares the gift of super high energy, all out performance, and great moves!
