### *Historical Sketch*

The Landmarks Commission was established in 1970 as a division of the City Plan Commission in response to the community's renewed interest in Kansas City's architectural history. The Commission's stated purpose was to locate and identify structures, sites, objects, and districts within the corporate limits of the city which, due to their exceptional architectural and historical significance, should be preserved for posterity. The now renamed Historic Preservation Commission is a division of the City Planning and Development Department and oversees the Kansas City Register of Historic Places and identifies and evaluates historic structures in Kansas City.

### *Scope and Content Note*
